REPORT

OF THE

DEPUTY POSTMASTER GENERAL

1901-1902

POST OFFICE DEPARTMENT,
OTTAWA, October 24, 1902.

To the Honourable Sir WM. MULOCK, K.C.M.G.,
Postmaster General.

SIR,—I have the honour to lay before you the several statements comprising the Report of the Post Office Department of Canada for the fiscal year ended June 30, 1902.

The total net revenue of the Post Office from all sources, excluding that from the Yukon and Atlin Districts, shows an excess over the previous year of \$466,933.91, and the total gross revenue exceeded that of the previous year by \$507,585.40. The expenditure of the Department, excluding that of the Yukon and Atlin Districts, exceeded that of the previous year by \$45,640.78.

The following statement shows the Department's operations year by year, commencing with 1896 :—

Year.	Net Revenue.	Expenditure.	Deficit.	Surplus.
	\$ cts.	\$ cts.	\$ cts.	\$ cts.
1896.....			781,152 19	
1897.....	3,202,938 42	3,789,478 34	586,539 92	
1898.....	3,527,809 69	3,575,411 99	47,602 30	
1899.....	3,182,930 92	3,581,848 71	398,917 79	
1900.....	3,183,984 17	3,645,646 04	461,661 87	
1901.....	3,421,192 19	3,837,376 18	416,183 99	
1902.....	3,888,126 10	3,883,016 96		5,109 14

N.B.—The loss of revenue in 1899 and subsequently was caused by the reduction in the Imperial letter rate from 5 cents to 2 cents, which went into effect on the 25th of December, 1898, and by the reduction in the domestic letter rates and in the letter rate from Canada to the United States, which went into effect one week later, namely on the first of January, 1899.

NOTE.—In addition to the above the usual variations in mail service, as changes were necessitated, occurred during the fiscal year.

POSTAGE STAMPS.

The operations of the year show a marked and continuous increase in the total output of stamps, as shown by the tabulated statements in Appendix J. This, as compared in value with the issue of the preceding year, represents a growth of nearly six

SESSIONAL PAPER No. 24

per cent, the value of the output for 1900-01 having been \$4,401,138.85, and that for 1901-02, \$4,662,354.35, a difference of \$261,215.50. The number of pieces issued was 263,473,150, which, compared with the previous fiscal year, indicates an increase of 18,857,110 or 7,1 $\frac{7}{10}$ per cent. It will be noticed by the comparative statement, page 4, Appendix J., that this growth is practically confined to the adhesive stamps, the demands for postal stationery evidencing little change.

The decrease in the output of 20c. and 50c. stamps, as noted in the comparative statement, is the result of the change made at the beginning of the current fiscal year, in the method of prepaying postage on second class matter, cash having been substituted for postage stamps.

The number of licensed stamp vendors in the Dominion on June 13, 1902, was 1,305, being an increase of 116 over the previous year.

The usual tabulated statement of receipts and issues for the fiscal year, together with the comparative statement exhibiting the issues of the fiscal years 1900-01 and 1901-02 will be found in Appendix J.

POSTAL NOTES.

During the year ended June 30, 1901, the number of paid notes was 877,599 and their aggregate value \$1,459,015.75, and for the year ended June 30, 1902, the number of paid notes was 1,012,091, and the aggregate value \$1,702,469.85, an increase of 134,492 in the number of transactions and of \$243,454.10 in the amount of money transmitted.

The total number of offices at which postal note business could be transacted was 5,001 on June 30, 1902, an increase of 1,245 over the number in operation on June 30, 1901.

Statements showing the progress of the business month by month since its commencement will be found in Appendix F of this report.

The following statement shows the number of paid notes received in the Department during the fiscal years ended June 30, 1899, 1900, 1901 and 1902.

MONEY ORDER TRANSACTIONS.

The decrease in the number and value of Money Orders issued which attended the introduction of Postal Note business in the year 1898 has been overcome: the records for the year ended June 30, 1902, showing that 281,272 more orders, with a value of \$9,437,777.65 were issued than in 1898.

The total number of orders issued was 1,446,129, being an increase over the previous year of 295,105.

The aggregate value was \$23,549,402.07, showing an increase over the previous year of \$5,593,144.20, being the greatest increase both in number and amount that has been known in the history of the Department.

Of the orders issued during the year 1,032,417 were payable within the Dominion and 413,712 were payable abroad.

Compared with the previous year there was an increase of 195,417 with an aggregate value of \$4,098,745.71 in the former class, and an increase of 99,688, with an aggregate value of \$1,494,398.49 in the latter class.

As will be seen by reference to Appendix C, the increase was not confined to any particular section of the country, but was fairly proportionate in all the provinces.

The number of orders issued abroad and payable in Canada was 259,205, with an aggregate value of \$3,575,803, being an increase of 77,763 in number and \$982,957.92 in amount.

The Money Order transactions with the United States under the new convention which was signed at Washington on September 30, 1901, and at Ottawa on October 3, 1901, and which was referred to in my Report of last year, show a very substantial increase over those of the previous year.

The number of orders issued in Canada on the United States was 286,179 and the value \$3,173,310.67, an increase of 81,518 in number and \$1,055,015.34 in amount.

The number of orders issued in the United States on Canada was 214,597 and the value \$2,866,183.48, an increase of 76,986 in number and \$957,014.74 in amount.

The satisfactory working of the new system of exchange with the United States, by which the delay incident to the certification of advices at exchange offices has been avoided, and the cost of maintaining the exchange staffs saved, induced this Department to make similar propositions to the United Kingdom and Newfoundland.

The Newfoundland Government accepted the proposals and direct exchange is now in operation with that colony.

Negotiations with the United Kingdom to the same effect have not yet been completed.

^a. This increase in the cost of management arises from the exhibition for the first time as a charge against the money order system, of the salaries of clerks in city post offices, engaged exclusively in money order duties; also from the preliminary expenses incurred in organizing money order exchange with a number of additional countries, as stated in the report for the year ended June 30, 1883. ^b. Including the amount of the "Void" orders of the previous years. ^c. Including payment for services partly chargeable to preceding year. ^d. Under the system of accounts introduced July 1, 1888, these items cannot be given separately.

In addition to the above there is a staff consisting of one first class clerk, seven second class clerks, twelve third class clerks and two temporary clerks, making a total of twenty-two belonging to the outside service of the department, assisting the superintendents in their offices.

CASE EXAMINATIONS.

The following statements show the number and extent of such examinations held during the fiscal years 1897-98, 1898-1899, 1899-1900, 1900 and 1901.

Year.	Cards handled.	Correctly handled.	Percentage correctly distributed.	Examinations held.	Average cards handled per each examination.
